LE H HBS WA B STIERED! T RE TRADE A MARK.

We published an article Friday from the Desired rolating to the business thanks a published in the business thanks a Dimarké held the manufacture of the business and the published beautiful the manufacture of the business and the published beautiful the manufacture of the business and the published beautiful the manufacture of the published beautiful the published beautiful the published by the published and the publish The Dispatch hold that we ought to be point; and so we would be in the tral course of things, for Pittsburgh is a the most divest resident communication be-tween the two points. Here are a dozen towns in this region and a scattered population of thousands and here are thousands of redis all walking the Thirteety of supplies and materials The houses fell for yet supplies and materials and some men are some to have been killed instance and the resulting mills forming factories and machine shops, and all her vast absoratory of manufacturing industry.

The houses fell for yet feet. her vast laboratory of manus arteriary manuscriptions. But it is passions that manuscription trade and commerce of this region, which since the Alexand laborate was completed, should be a support of the complete of the com graving to Pittsburgh, still seeks and glade other ohumods and markets. The article of rope is spoken of by the Dispatch as being one of inquense consumption in of the beauty and soult is, and the bulk of it comes from New Bedford, seven handred mile when instead of Pittsburg, which is distant latand there is no doubt that if proper steps are taken, it may, in time, be secured, and ories rivels appropriated.

The Cost of the War.

Commissioner Wells, in his report, present to Congress, gives an estimate of the cost of th OF the government spent, in war expen-June 30, 1869, \$4,171,014,498. This exchales what the administration would have cost had re blen no war, and may be called the ne

oost to the government of the rebellion.

To this, however, must be added a number items, which Mr. Wells gives thus:

Pensions, capitalized at eight years

grouphase.

150 000,00

County, mity and fown indebtedness in-creased on account of the war . *!-

fimated direct expenditures and se-f property by the Confederate Scales a page of the war by reason of the war.

This makes a total of loss by the war to the hole country of nine thousand millions of ollars. "This, then," ways Commissioner

"was the cost of the destruction of slavery—the cost of compromise—the rest of the unfulthfulness of those who founded the nation to the idea by which the nation ligo-What does it measure?—It is substantially thousand millions a year for nine veer-Lor. at the wages of five bunched dollars a she labor of two millions of men exerted e tinuously during the whole of that per ol. If is five times us mends as the slave property of the the country was ever worth. It is a sum which the country was ever worth to the end of time of the country was the annual slave product et et al.

the South in its best estate."

W Morgan of Pittsburgh, preading. Mi hower, of Boston, stated in his all ress that cash Bassar of the Church of St. Ann. In the same through the pipe, and this system permits light gravity oils to be sold on the same terms as heavy oils. The cure for the difficult, he thought, was to receive the difficult, he thought, was to receive the difficult, and the same terms as heavy oils. have the refiners agree as to a certuin point or ber, as representative of different aubicets, have as Belfry Voices should do the poetry of musi , exalted religious aspiration and are plum all oils over this test occurring to an able and doclare that n oil shall be morehant-literary critic of the N 1 Erening 12 study able of it contains residuum. As matters were says that "the gifted authoress has sung the value of the contains residuum." rious music of St. Ann's chines with wonder ul effect" We are tempted to give a specimen

DEPICATION

Chime, chime, ye B.B.B, the won Issus story
Of the love that in sike you ring
Chime the choruse of this glob,
One that make the ins inde sing.
Who hath made the ins inde sing.
Chime the chimesopy of make a constant
As in towed to bloss the woman
Who all blessing should comman!
Chime the singth, or it, but p vida,
Who hath benyabled your King.
Chime workshop to the single chime and the constant
As your matthems star and wing.

Chunc the hymns of saided Maryis bwe, my mas of saided Maryis bwe, my mas of saided Maryis Chunc the peans of the faited Bone on which a said said of the faited Maryis Church Maryis Ma

The National Convention of Petroleum Reiugre, met in New York on Tuesday, to con sider the general interests of the trade Mr B W Morgan of Pittsburgh, presiding Mr an of Pittsburgh, presching f Bosten, stated in his id fre standard that is much utable for oil say forty

five or forty-six degrees gravity, and then make it the interest of the will-men to let evaporaall oils over this test be omaid; red as less valuared, but the railroad companion complained of the danger from tire arising from transport

in many cases they return to carry ther Mr Flagler, of Cleveland, referred to the for that at the Convention held in Ci velan ! this question came up and an agreement or ad dress was entered into among the refiners that all purchases of crude oil, from and after Sep tumber 25, 1869, should be based on a re ogn time of forty six degrees specific gravity as the hint of merchantable oil. For all oils of lighter gravity, delivered, they agreed t lam a deduction of 2.14 per cent pribate that the trevery degree above the test. And the received. He thought that some such as

tem might be profitably considered here M I wrigsten of Pittsburgh, and that it in 1867 only 78 in 68 70 1 2 in the be This lists litted of the common at ming of 1869 68 as I within the passive ring in and not a new ties that it month only 65 per cent could be obtained over next a roturn. The showed that the nd was bong available over next a roturn. Pittsburgh thought that the best way to rem rates—establish a stan lard test and a terr it being determined that is the quality of oil be x coming from the wells decreases the selling price shall decrease also. Mr Flagler in v l to make the gravity test forty tive degrees in ion as to whether there was any natural Aur n with as liw a greaty as bety five degrees. It n ns was contended that it of this set d greaty seep to see the second set of the set of the second seco

> degrees was a low gravity and one gentlemin Mr M rrill from Boston, declared the way from forty seven to fifty in degree sgriv The Chairman thought that the way was to fix the standard at firty five quarin, in ord r to success made princip degrees grivity. There was no damen that oil at that gravity ull not by a uncl. If prolucers must sill this will a big ring is which is the what their in the r On the 15th the Convention reasonable to 1 pri tical legrees in lafter th 1st of Linuing 1570 all

gen leren maintain d that even forty seven
